

Cordova Community Pool Project

For the past three years the Park District has been steadily working towards a sustainable plan to renovate the pools at Hagan Community Park. After a thorough evaluation was performed for the facility by Aquatic Commercial Consulting ([click here for evaluation report](#)), District staff began crafting project documents for a design-build bid and actively pursuing funding for a capital improvement project. On April 11, 2016 the Board of Directors approved the design-build contract and outlined the process for a series of visioning meetings with the public. The first meeting will take place on June 8, 2016 at 6:30 PM at Hagan Community Center. We hope to see you there!
