

Williamson Park Sound Wall Project
Cordova Recreation & Park District
Addendum #2 Issued on Monday September 19, 2022

Questions:

- 1.) *Pilaster detail refers to “Natural Cobblestone” to match existing. Is natural cobblestone correct? **To clarify, there is no existing veneer to match, however, natural cobblestone is the correct veneer for the pilasters.***
- 2.) *The 3’ min. distance between wall and existing fence appears that a straight line from each end to corner will be a variable number on the 3’ min. distance space. Does contractor provide a survey or will Cordova Rec & Park District (CRPD) provide? **CRPD will provide a surveyor to stake wall placement.***
- 3.) *Water on project, do we need to figure meter cost, or will CRPD provide? **The Contractor will need to include the cost of a temporary water meter in his bid.***
- 4.) *Is the Contractor responsible for permit and testing fees? **No, CRPD has obtained the necessary permits and is contracting with a special testing agency. The Contractor is responsible for complying with all permit and testing requirements.***

I have read and understand the above addendum.
